GLACIER BAY NATIONAL PARK & PRESERVE
Park-Specific Provisions

THESE SPECIFIC PROVISIONS ARE APPLICABLE TO THOSE COMMERCIAL ACTIVITIES AND AREAS AUTHORIZED ON YOUR COMMERCIAL USE AUTHORIZATION.

GLACIER BAY NATIONAL PARK & PRESERVE

GENERAL TERMS & CONDITIONS

1. The Permittee must submit an annual activity report and Sportfish Survey on the attached forms. The annual report must be received at the following address by November 15 of each year. The Sport Fish Survey form is due at the end of each month during which sportfishing activities took place. Send the completed forms to: Glacier Bay National Park, Attention Concessions Office, P.O. Box 140, Gustavus, AK 99826 or by fax to: (907) 697-2654, or by email to david_nemeth@nps.gov.
2. Management fees paid for Glacier Bay National Park and Preserve are not refundable, nor will a credit be issued. **Permittees who will not use their permit for any reason (from the effective date of the permit) and want to cancel their permit may obtain a refund or credit of the management fee if the park service is notified by April 1, 2004.** After April 1, 2004, refunds or credits will be issued only under extenuating circumstances and on a case by case basis. Notification can be given via Phone: 907-644-3362, Fax: 907-644-3813 or email: brenda_coleman@nps.gov.
3. All operations shall be conducted in conformance with relevant National Park Service regulations contained in the current printing of the US Code of Federal Regulations, with particular attention to applicable elements of 36 CFR 13.65 and the park compendium. The park compendium is normally revised on an annual basis and includes closures, restrictions and other operating requirements. A current copy is available on the park internet web site at: <http://www.nps.gov/glba/visit/regs.htm> or by contacting the park.

ACTIVITY SPECIFIC TERMS & CONDITIONS

Guided Sportfishing Services

Freshwater sportfishing guide service is authorized only in Glacier Bay National Preserve and that portion of Glacier Bay National Park north and west of Lituya Bay.

Charter Vessels

1. This permit authorizes charter vessel services in Glacier Bay National Park marine waters except as follows: use of Glacier Bay proper (north of a line from Pt. Gustavus to Pt. Carolus) and Dundas Bay (north of a line from Pt. Dundas to Pt. Wimbledon) are not authorized from June 1 – August 31.
2. Charter vessel services are restricted to the marine waters of Glacier Bay National Park unless specifically authorized in writing by the Superintendent.

Guided Kayaking

1. Guided kayaking services are limited to marine waters of Glacier Bay National Park and Preserve from September 11 through May 31 and to the marine waters of Glacier Bay

National Park & Preserve, **excluding Glacier Bay proper** (north of a line from Pt. Gustavus to Pt. Carolus) from June 1 through September 10.

2. The authorized area for guided kayaking from June 1 through September 10 is broken up into the following areas: Excursion Inlet, Dundas Bay, Taylor Bay, Cape Spencer to Palma Bay, Palma Bay to the entrance of Lituya Bay, Lituya Bay, and the entrance of Lituya Bay to Sea Otter Creek. Only one guided trip will be authorized in each of these areas at a time. Trips will be assigned on a first, come-first served basis through the park. To schedule a trip in June, July or August call the Park Backcountry Office:(907) 697-2627. At other times call the Park Concessions Specialist (907) 697-2230.
3. If the trip involves overnight camping within the park, the terms and conditions for *Backcountry Use* apply (see below).

Backcountry Use

1. All use of the park authorized by this permit is subject to the restrictions of the Glacier Bay Wilderness Visitor Use Management Plan, as follows:
 - a. On shore group size is limited to 12 persons, including guides and clients.
 - b. Groups will not remain longer than three consecutive nights in the same campsite, unless specifically authorized by the Superintendent.
 - c. A maximum of three guided backpacking and/or hiking trips is authorized per year per company.
 - d. A maximum of three guided mountaineering and/or ski touring trips is authorized per year per company.
 - e. Within Glacier Bay proper, guided parties may use beach areas for camping only on the first and last night of each trip. Guided backcountry groups may not use Reid Inlet for access between May 15 and September 15.
 - f. Guided mountaineering/ski touring is authorized only in the area east of, and not including, the Fairweather Range unless specifically authorized.
 - g. If access via marine waters to an area within the park is necessary, it must be provided by a company authorized to provide that access in Glacier Bay National Park & Preserve, i.e. an authorized charter boat, tour boat or air taxi operator.
2.
 - a. The permittee must obtain a *Backcountry Permit* for each overnight backcountry trip and all guides must complete a park backcountry orientation prior to the trip. The orientation, which normally occurs at the park Visitor Information Center in Bartlett Cove, may also be arranged by calling (907)-697-2627 from May 1 to September 15 and (907)-697-2230 during the remainder of the year.
 - b. The permittee must submit a trip report within 15 days after the end of each trip. The trip report must include the following information: date and location of each campsite, names of all participants (clients and guides), description of any close wildlife encounters, details of any accidents or injuries, means of access and backcountry permit number.

Air Taxi

1. Scheduled air service to Glacier Bay National Park & Preserve is not authorized.
2. This permit does not grant a base of operations within Glacier Bay National Park & Preserve.
3. The Permittee will reimburse the NPS for the cost of managing landing areas within the Park.

Mt. Fairweather Range Mountaineering

1. Up to two trips for all permittees, combined, will be authorized in the Fairweather Range. This area includes the area west of the Brady Glacier, west of Lamplugh Glacier and west of the ridge between Tarr and Rendu Inlets (as shown on figure 4 of the July 1989 Glacier Bay NP *Wilderness Visitor Use Management Plan* (see <http://www.nps.gov/glba/learn/preserve/plans/index.htm>) .
2. Applications for up to two trips per operator will be accepted from October 1 – October 31 for the following year. If more than two requests are received by October 31, a random drawing will be held on the first business day in November. If requests for two trips are not received by October 31, two trips will be allocated on a first come-first served basis.
3. Prior to beginning operations the Concessioner will provide the Superintendent with the following:
 - a. Itinerary of all climbs scheduled within Glacier Bay National Park and Preserve (routes, drop-off/pick-up dates and locations, planned campsite locations, scheduled summit date(s).
 - b. Documentation of insurance as required by this PERMIT.
 - c. A list of booking agencies used by the concessioner.
 - d. Copies of advertising.
 - e. List of all guides that the concessioner plans to employ during the season. The list will include the following: name, age, address, and role of the guide.
 - f. Name and phone number of transportation service providing drop-off and pick-up;
 - g. Communication capabilities of the guides (cell phone numbers, types of radios carried, monitoring or call-in schedule).
4. Within 30 days of the completion of each trip, the permittee will fill out and submit to the Superintendent a *Mountaineering Report* including as a minimum:
 - a. Map of route showing all campsites and bivouacs
 - b. Notes on any wildlife sightings.
 - c. Description of any evidence of human use (including other climbers) observed.
 - d. Number of aircraft overflights heard and seen while on the trip.
 - e. Description of climbing conditions including snow/ice conditions, avalanche activity.
 - f. Report of any accidents or injuries including:
 - Date of accident;
 - Name, address, phone number of person(s) involved in accident;
 - Description of accident;
 - Injury, if any; and
 - Medical treatment given, and by whom.
 - g. List of anything lost or left behind.
5. The Concessioner shall ensure that all guides leading trips will be fully qualified and experienced.
6. All human waste will be carried out or collected in biodegradable bags and deposited in a deep crevasse. All trash must be carried out and removed from the park.
7. The Concessioner may use a booking agent. The Concessioner is responsible for assuring that all potential clients contacted by the booking agent are clearly informed that said concessioner is operating the trip and is an authorized concessioner of Glacier Bay National Park & Preserve.
8. The Concessioner is responsible for assuring that advertising and rates utilized by booking agencies meet the terms and conditions of this PERMIT.
9. The Concessioner's base of operation shall be outside the boundaries of Glacier Bay National Park and Preserve.

This information is required under the terms of your Commercial Use Authorization. It should be submitted to the address above by November 15th of each year. A separate *Sport Fisheries Catch Survey Form* is also required. Include data for all activities within the Park (including the outer coast and all other waters of the Park). Use additional sheets as required. This form is available as a MS-Excel template on the Glacier Bay website at: <http://www.nps.gov/glba/InDepth/admin/commercial/index.htm>

Date: _____

[illegible]

GLACIER BAY NATIONAL PARK

SPORTFISHING SURVEY LOGBOOK FORM

This form is required under the terms of your commercial use authorization. Use at least one form for each charter trip. Fishing effort, catch and harvest must be apportioned by each location and by fresh or salt water. Submit form to: Concessions Office, Glacier Bay National Park & Preserve, P.O. Box 140, Gustavus, AK 99826 or fax (907) 697-2654 or email to David_Nemeth@nps.gov at the end of each month. Call Fisheries Biologist, Chad Soiseth at (907) 697-2659 if you have any comments or questions regarding the survey form or results.

Charter Business Name	Charter starting location	Charter ending location
Vessel name and ADFG No.	Charter begin date (mm/dd/yy) and time	Charter end date (mm/dd/yy) and time
Vessel operator	Number of crew	

[illegible]

SURVEY LOGBOOK FORM INSTRUCTIONS

Page__ of __ : Indicate page number and total pages (*i.e.*, Page 1 of 2) for each charter trip on each sheet. Use as many pages as needed for each trip.

Charter business name, vessel name, ADFG no., vessel operator and number of crew: Record your charter business name, vessel name, 5 digit ADFG no. (issued by the Commercial Fisheries Entry Commission), name of the vessel operator and number of crew, if any besides captain. Otherwise record 0.

Charter starting and ending location: Record port or site where trip originates and ends unless same as start location. If same as start location, then record "same".

Charter begin and end date and time: Record date and time at the start and end of each charter trip. Date is important for tracking seasonal trends and charter trip length. Time is important for accurately determining trip length (*i.e.*, half day, full day and multiple day), in verifying fishing effort (*i.e.*, rod hours) and in evaluating seasonal trends.

Date (mm/dd/yy): Record the date fished at each location. Please note that it is important to record fishing effort at each location even if no fish are caught.

Fishing location (be specific): Record each location fished within the boundaries of Glacier Bay National Park and Preserve. This is *critical* for accurately apportioning effort, catch and harvest. If several marine locations were fished, record effort, catch and harvest at each location. If a freshwater system or multiple freshwater systems were fished on a given day, record effort, catch and harvest for each stream or watershed. Please provide location information by water body (*e.g.*, name of bay, inlet, stream or lake, etc.) when available. Use the nearest landmark (*i.e.*, Ancon, Rush Point, Pt. Carolus, *etc.*) when water body identity is not available.

No. people fishing: Record the number of people fishing at each location including skipper and crew if applicable. This information will be used to document the number of charter vessel based Park visitors participating in this activity annually and to verify rod hours which are used for calculating catch rates.

Rod hours for salmon and/or for bottom fish. Trap hours for shellfish: Record the total number of hours of fishing time by species group at each location. Detailed information on fishing effort is needed to calculate catch rates for each species (catch per unit effort [CPUE] in number of fish or shellfish caught per rod or trap hour) at each location. For example, 2 rods trolling for salmon for 4 hours equals 8 rod hours of fishing effort for that species at that location. If one king salmon was caught, CPUE would be 0.125 salmon/h. Four people jigging for halibut for 2 hours at the same location would equal 8 rod hours of fishing effort. If 4 fish were caught, CPUE would equal 0.5 halibut/h. If the number of hours fishing varies for each person add the number of hours fished by each person by species group targeted at each location and sum for species group. If you fished for crab or shrimp, estimate the total number of hours fished by all gear. For example, if 4 shrimp pots were fished overnight for 10 h each then total effort (trap hours for shellfish) would be 40 h.

Record species of finfish and shellfish caught in that location (include no. of each): For each location, record the common name of all finfish and shellfish species caught to the best of your ability. Record the number of individuals by species for each location.

Length of fish kept: Measure length from tip of snout to end of caudal fin for **all finfish** kept. A dressmaker's flexible tape serves this purpose well. Pinch together upper and lower caudal fin lobes as shown (above left) for measuring length of salmon, rockfish or lingcod. Halibut should be measured as indicated without manipulating the caudal fin.

Number of finfish and shellfish released: Please record numbers but do not measure released finfish or shellfish. This will reduce handling impacts and stress to these individuals.
